CAREER OBJECTIVE

Motivated Information Technology undergraduate seeking an entry-level software development opportunity where I can apply my programming, problem-solving and communication skills. Passionate about Artificial Intelligence and full-stack development, eager to learn industry practices and contribute to real-world applications.

EDUCATION

B.Tech - Information Technology,
Sri Krishna College of Engineering and Technology (SKCET)
(Currently 3rd Year - 6th Semester)

2023 - 2027

TECHNICAL SKILLS

Programming Languages

- Java
- Python
- C++
- C

Frontend Development

Database

- MySQL
- Basic Database Design

Web Development

- HTML
- CSS
- JavaScript

Backend Development (Basic APIs)

Tools & Technologies

- Git & GitHub
- VS Code
- Postman
- IntelliJ / Eclipse

AREA OF INTEREST

- Artificial Intelligence
- Software Development
- Backend Engineering
- Problem Solving & DSA

PROJECTS

Movie Database Application, *Technologies: Java / Backend + Database*

Developed a movie management system to store, update, search and delete movie records Implemented CRUD operations using database connectivity Designed structured tables for efficient data retrieval Practiced backend logic and application structure

Full-Stack Mini Applications, *Technologies: HTML, CSS, JavaScript, Backend basics*

Created responsive web interfaces Connected frontend with backend logic Learned API handling and form validation

AI Learning Projects (Self-Practice)

Explored basics of machine learning concepts Implemented beginner Python programs related to data handling Studied real-world AI applications and model workflows

EXTRA-CURRICULAR

Self-learning AI concepts and modern technologies Practicing coding and mini projects Active learner of software development trends

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.

SOFT SKILLS

- Communication Skills
- Quick Learner
- Adaptability
- Team Collaboration
- Problem Solving
- Time Management
